

## NAIC SPEED TO MARKET FILING SUGGESTING FORM

Enter your suggested enhancement as indicated under the Speed to Market Filing Initiative listed below. The NAIC will sort through suggestions received and bring them before the Speed to Market Working Group (S2MWG) of the Innovation Task Force for consideration of adoption. Once the Working Group has made a decision regarding a suggested enhancement, it will be deleted, but could be deleted by the NAIC at any time for reasons such as inappropriateness or incompleteness.

### Key Dates

The following timeline is presented for clarification:

- **Summer National Meeting:** By this event, the S2MWG will have considered new suggestions and proposed changes to the initiatives will be posted on the NAIC website for review by states and interested parties. Innovation Task Force will consider S2MWG recommendation for changes to the initiatives. Final changes will be posted to the NAIC website immediately following the National Meeting to allow states and interested parties time to implement the adopted changes.
- **January 1:** New changes go into effect.

*Suggestions received after June 1 will not be considered until the following annual review period. However, the S2MWG reserves the right—where a suggestion is considered essential by the NAIC—to bring it up for consideration at any time.*

### Submitting Suggestions

When submitting your enhancement suggestion, consider the following:

- Make a concise statement of the product filing issue addressed.
- Caption each item proposed for change.
- Specify the location of each proposed item in the Initiative.

**Please Provide Your:**

Name:

Title:

Affiliation:

E-Mail Address:

Telephone Number:

**TO MAKE YOUR SUGGESTION, first click on the appropriate response below:**

I am a regulator.

I am an interested party (e.g., company representative).
