## What Is the Insurance Stakeholders Roundtable?

- The Roundtable provides a forum for state partners, state associations and organizations, floodplain managers, emergency managers, realtors, lenders, and insurance agents to engage in open discussion about floodplain management, increasing the number of flood insurance policies, and protecting residents from the impacts of flooding.
- The Roundtable highlights the need for insurance and the importance of working with our state, local, federal, and private sector partners to reduce flood risk across their community.
- The Roundtable meets every three months and features speakers to discuss outreach, flood insurance, stakeholders' planned events, mitigation, grants and RR 2.0 updates just to name a few.

## Mission Statement: Insurance Stakeholders Roundtable

Advance the promotion of flood and wind insurance, in addition to homeowner's and renter's coverage in the state — as we all want residents to be covered by insurance and be able to recover more quickly after an event.
